		June 2023	External Auditor of TAKARA HOLDINGS INC. (up to the present)
		June 2024	External Director of the Company (up to the present)

Reason for election:

In addition to her professional knowledge and broad insight as an administrative officer of the Ministry of Health, Labour and Welfare for many years, she has served as an external director and external auditor at other companies. Since her appointment as an external director of the Company in 2024, she has provided candid, active, and constructive comments and suggestions at meetings of the Board of Directors. Since she is expected to strengthen supervision of the Company's management from a fair and neutral standpoint, we decided to continuously elect her as a candidate for external director. Although she has not been involved in company management in a way other than the function of an external officer, for the reasons stated above, we consider her able to appropriately fulfill her duties as an external director of the Company.

(Notes)

1. Sumitomo Seika Singapore Pte. Ltd. merged with Sumitomo Seika Asia Pacific Pte. Ltd., which was also a subsidiary of the Company, through an absorption-type merger on April 1, 2023.
2. No material conflict of interest exists between the above candidates and the Company.
3. The Company has appointed YOSHIMOTO Akiko as an independent officer provided for by the Tokyo Stock Exchange and submitted notification to the said stock exchange.
4. The Company has concluded a contract with YOSHIMOTO Akiko that limits his liability for damages set out in Paragraph 1 of Article 423 of the Companies Act up to the total of the amounts set out in each item of Paragraph 1 of Article 425 of the said Act. When she is elected as the director, the Company intends to continue the said contract for the limitation of liability with her.
5. When TAKESHITA Noriaki is elected as the director, a contract for the limitation of liability that stipulates that the maximum amount of liability for damages set out in Paragraph 1 of Article 423 of the Companies Act shall be limited to the total of the amounts set out in each item of Paragraph 1 of Article 425 of the said Act is going to be concluded between him and the Company.
6. The Company has concluded an officer liability contract insurance in which each director is the insured and shall assume such liability for the execution of duties that is to be borne by the insured or shall compensate for the damage and litigation expenses that may be incurred by receiving the claim relating to the pursuit of the relevant liability. In addition, when this proposal has been resolved to approve as drafted, all the candidates for director shall be the insureds of said insurance contract, and the relevant insurance contract is going to be renewed during their terms of service.
7. The term of service shall be the one as of the point of time of conclusion of the ordinary general meeting of shareholders at this time.
8. During YOSHIMOTO Akiko's time as an external director of the company, cases were uncovered at our group company of changing raw materials suppliers without prior notice to customers and overbilling them for product proceeds. While she had been unaware of such circumstances until these cases were uncovered, on the Board of Directors and other venues, she has diligently pointed out the need to develop internal controls and enhance compliance systems. Since these cases were uncovered, she has fulfilled her responsibilities through means that included investigating the facts of the cases, identifying their causes, and proposing and issuing instructions on preventive measures.

2nd Proposal:

Election of Four Directors (Audit and Supervisory Committee Members)

As the terms of office of all four directors (Audit and Supervisory Committee Members) shall expire at the conclusion of this general meeting of shareholders, we would like to hereby propose the election of four directors (Audit and Supervisory Committee Members).

The Audit and Supervisory Committee has given its consent to this proposal.

Candidates for director (Audit and Supervisory Committee Member) are as follows:

Candidate number	Name		Current post and duties in the Company	Board of Directors attendance (%)	Audit and Supervisory Committee attendance (%)

In addition, when this proposal has been approved as drafted, all the candidates for director (Audit and Supervisory Committee Member) shall be the insureds of the insurance contract, and the relevant insurance contract is going to be renewed during their terms of service.
7. The term of service shall be the one as of the point of time of conclusion of the ordinary general meeting of shareholders at this time.
8. During both time of KISHIGAMI Keiko and YOSHIKE Fujio as an external director of the company, cases were uncovered at our group company of changing raw materials suppliers without prior notice to customers and overbilling them for product proceeds. While they had been unaware of such circumstances until these cases were uncovered, on the Board of Directors and other venues, they have diligently pointed out the need to develop internal controls and enhance compliance systems. Since these cases were uncovered, they have fulfilled their responsibilities through means that included investigating the facts of the cases, identifying their causes, and proposing and issuing instructions on preventive measures.

<Reference 1 - Skill Set of the Board of Directors >

Skills (knowledge, experience, ability)	Reasons for Selecting Skills
Corporate Management	The roles of the Board of Directors are to make important managerial decisions and oversee management. To undertake these roles, the Company needs directors who have experience and achievements concerning corporate management.
Technology Strategy/Research & Development	To enable the Company, a chemical manufacturer, to enhance its corporate value on a sustainable basis, the formulation of technical strategies, product improvements, and the development of new products and technologies that satisfy demands from users and markets are absolutely necessary. Therefore, the Company needs directors who have knowledge and experience in the fields of technology strategy and research & development.
Production Technology/Production Management	To enable safe and stable plant operation and efficient manufacture of high-quality products, the Company needs directors who have knowledge and experience of production controls and production technologies.
Quality Assurance	To enable stable manufacture and shipment of high-quality products, the Company needs for directors who have knowledge and experience of quality assurance.
Legal Affairs/Risk Management	Ensuring appropriateness in corporate activities is the foundation of management, and appropriate risk management is necessary to enhance corporate value under sound risk taking. Therefore, the Company needs directors who have knowledge and experience in the fields of legal affairs and risk management.

< Reference 2 Criteria for Independence of External Directors >

If a person does not fall under any of (1) to (9), the Company may designate such person as an independent officer.

- (1) An executor of the business of the Company or a company of the Company's Group (a director other than an external director, an executive officer, or an employee [by whatever name, any person having an employment relationship with the Company or a company of the Company's Group])
- (2) An executor of the business of a major customer or business partner. A major customer or business partner means a person who falls under any of the following items.
 - (a) A business partner providing products or services to the Company or a customer to whom the Company is providing products or services of which the total amount of such transactions in the most recent business year relevant to intended designation as an independent officer exceeds 2% of the Company's unconsolidated sales or exceeds 2% of their sales to the Company
 - (b) A financial institution providing loans to the Company of which the total amount at the end of the most recent business year relevant to intended designation as an independent officer exceeds 2% of the Company's unconsolidated loans; provided, however, that even if the amount does not exceed 2%, a financial institution stated as a lender to the Company on annual securities reports, business reports, or other public documents shall be included in major business partners
- (3) A consultant, certified public accountant, attorney, or other expert receiving remuneration from the Company other than remuneration for officers of which the total amount of the remuneration paid, other than the remuneration for officers from the Company, in the most recent business year relevant to intended designation exceeds 10 million yen
- (4) A person who belongs to an organization that is a consulting firm, tax accounting firm, law office, other corporate body, or partnership, which has transactions with the Company, and whose sales to the Company in the most recent business year relevant to intended designation as an independent officer exceeds 2% of the organization's total sales or 10 million yen, whichever is larger
- (5) A shareholder of the Company whose share of voting rights at the end of the most recent business year relevant to intended designation as an independent officer is 10% or more (a total of direct and indirect holdings) of the total voting rights or an executor of the business at the shareholder entity
- (6) Of the companies in which the Company holds shares, a company in which the Company's share of the voting rights at the end of the most recent business year relevant to intended designation as an independent officer is 10% or more (a total of direct and indirect holdings) of the total voting rights or an executor of the business at the shareholder entity
- (7) A person who belongs to an auditing firm that conducts statutory audits of the Company
- (8) A person to whom (1) above was applicable in the past or to whom any of (2) to (7) above was applicable in the past five years
- (9) A spouse or a relative (within a second degree of kinship) of a person to whom any of (1) to (8) above applies

Business Report

(From April 1, 2024 to March 31, 2025)

Group Overview of Operation

(1) Introduction

Under its arrangements with business partners, one of the Company's subsidiaries ("the Subsidiary") manufactures and sells distinctive products for which selling prices vary by raw materials supplier. It has been uncovered that as a result of changing suppliers of raw materials without notifying business partners in advance, and then shipping the products at their previous prices, the Subsidiary excessively received a difference in prices equivalent to 1,355 million yen (including transactions in past fiscal years).

We offer our sincere apologies to business partners and other related parties for the serious concern that this has caused.

(2) Business Progress and Results

During the current fiscal term, the United States and Europe have implemented interest rate cuts in response to declining inflation rates, while the Japanese economy has reached a turning point towards moving out of deflation, as seen, for instance, from the Bank of Japan having raised interest rates. Additionally, mounting geopolitical tensions and changing trade policies of various countries have served to further increase uncertainty about the future.

Under these circumstances, the consolidated financial results of the Company for the current fiscal term were as follows:

Net sales posted 147,571 million yen, a 3.2% increase compared with the previous fiscal year;

Operating profit was 10,712 million yen, a 12.4% increase from the previous fiscal year;

Ordinary profit recorded 11,106 million yen, 8.4% higher than the previous fiscal year;

Profit attributable to owners of the parent came to 5,961 million yen, a 3.3% fall from the previous fiscal year, which was due to the recording as an extraordinary loss of an expense related to the product price mischarging to a customer and an impairment loss related to certain products in the Functional Materials segment. Basic earnings per share were 450.62 yen and return on equity (ROE) was 6.3%.

As stated in the "Policy on Determination of Dividends from Surplus" below, the Company considers returning profits to shareholders as one of its priority management issues and makes it a basic policy to determine dividends based on the dividend payout ratio of 30% or more taking into consideration to stable dividend payment and securing of internal reserves to prepare for future business development. Based on this policy, the Company has decided to pay a year-end dividend of 100 yen per share for the current fiscal term. As a result, including the interim dividend (100 yen per share), the annual dividend for the current fiscal term is 200 yen per share (annual dividend for the previous fiscal term was 200 yen per share).

The financial results of each business were as stated below:

Super Absorbent Polymers (Hygiene Products, such as Disposable Diapers or Sanitary Products, Pet Sheets, and Industrial Materials, such as Water Blocking Materials for Power and Optical Cables)

In this business, net sales increased by 8.6% over the previous fiscal year to 115,542 million yen, and operating profit grew by 22.4% to 8,088 million yen, chiefly because of favorable impacts of changes in foreign exchange rates and increased sales volume in the Chinese market.

Water-soluble Polymers, Emulsion, Particle Polymers, Pharmaceuticals-related Products, Functional Products, Electronics Gases, Standard Gases, Industrial Chemicals, Medical Gases, Chemical Gases, Oxygen, Nitrogen, Hydrogen, and Other Gas Generators (PSA System)

In this business, net sales decreased by 12.3% from the previous fiscal year to 31,789 million yen, and operating profit fell by 10.0% to 2,622 million yen. The decline in both net sales and operating profit was due mainly to the termination of the Company's IR Latex business, though higher sales volume of electronics gases contributed favorably.

In addition to the above businesses, the Sumitomo Seika Group (“the Group”) is engaged in contract manufacturing service and other businesses. In this segment, net sales decreased by 24.6% from the previous fiscal year to 239 million yen, and operating profit decreased to 2 million yen.

(3) Capital Expenditure

The total amount of the capital expenditure for the current fiscal term was 20,291 million yen, mainly for the enhancement and improvement of production facilities.

(4) Financing

During the current fiscal term, the Company raised 5,000 million yen in equipment financing by arranging a syndicated loan with Sumitomo Mitsui Banking Corporation as the lead manager.

(5) Issues to Be Addressed

It was uncovered recently that the Subsidiary had manufactured products after changing the suppliers of raw materials from those agreed to with business partners without notifying them and then billed them for product proceeds that did not reflect the change in raw materials. The Company takes this situation very seriously. We recognize the need to prevent a reoccurrence of such practices and to ensure the quality of products delivered to business partners to be matters of utmost importance, and we will strive sincerely to meet that need.

Specifically, we will strive to implement thorough quality and transaction compliance, effectively perform supervision and auditing by the management and auditing sections, and strengthen group governance. To implement thorough quality and transaction compliance, we will enhance thorough compliance training, double-check quality and transactions, and swiftly address any identified issues—including efforts at the Group. For effective supervision and auditing by the management and auditing sections, we will rebuild inter-organizational checks and balances and checking functions and build structures capable of ensuring the propriety of business operations. To strengthen group governance, in addition to ensuring the propriety of business execution by the Group, we will implement controls focused on whether company operations reflect customer and quality perspectives. Through these companywide efforts, we will strive to prevent a reoccurrence of such an incident and regain the trust of our valued stakeholders.

The Group formulated a medium-term business plan for FY2023 to FY2025, and has focused on the following four priority initiatives under the plan: “Build Resilient Business Structure”, “Reap Fruits of Research & Development”, “Promote Thorough Streamlining”, and “Boost Sustainability Initiatives”.

Build Resilient Business Structure

As demand in India and other Asian markets is projected to continue to grow in the Super Absorbent Polymers business, the Company's subsidiary in Singapore is constructing new manufacturing facility to realize further increases in sales. This facility is planned for completion during FY 2025. At the same time, this business will strive to maintain and expand its market share through the continual efforts of streamlining work to improve plant productivity.

Results in the Functional Materials business are expected to be far below the targets of the Medium-Term Business Plan because of the discontinuation of sales of IR latex earlier than planned and sluggish sales of electronics gases as a result of the slowdown in the semiconductors markets. We will strive to revise the business portfolio including withdrawal from unprofitable businesses and improve profitability through rectification of selling prices.

Reap Fruits of Research & Development

The Super Absorbent Polymers business will steadily develop and introduce new products to help reduce waste and consumption of materials, further enhancing consideration for the environment and safety. It will also strive to develop technologies for horizontal chemical recycling of super absorbent polymers recovered from used paper diapers. It also has built a pilot facility for super absorbent polymers in the Himeji area, to achieve even more efficient industrialization research.

The Functional Materials business will work to develop products such as next-generation semiconductor materials, electrolyte additives for new lithium-ion batteries and insulation coating materials.

Construction is underway on a new research building in the Befu Works to accelerate development of these new technologies and new products. Construction is planned for completion in FY 2026.

Promote Thorough Streamlining

The Super Absorbent Polymers business will promote further streamlining through means including improvements to manufacturing processes to contribute to reducing CO₂ emissions intensity, in addition to the emissions intensity improvements planned under the streamlining project and steadily demonstrating the benefits of increased production. The new facility currently under construction in Singapore is designed to incorporate these rationalization measures.

In the Functional Materials business, we are working to improve productivity and reduce costs thoroughly.

Furthermore, as part of our company-wide efforts to improve productivity, we are promoting the improvement of business processes through the utilization of the ERP system and the automation and acceleration of operations through the use of digital technology at plants and laboratories.

Boost Sustainability Initiatives

The Group has identified the following six material issues: Ensure Access to Sanitation, Healthy Lives & Better Quality of Life; Ensure Access to Affordable, Reliable & Sustainable Energy; Build Resilient Infrastructure & Foster Technology Innovation; Ensure Sustainable Consumption & Production Patterns; Promote Gender Equality; and Achieve Carbon Neutrality. It has also established KPIs to ascertain quantitatively the state of its efforts on each item and will carry out practical measures to achieve KPI targets. As initiatives toward achievement of carbon neutrality, the Group will strive to reduce Group GHG emissions and promote development of technologies to contribute to society-wide GHG emissions reductions, such as separation and recovery technologies for low concentration CO₂ and recycling of used super absorbent polymers.

The table below shows our forecast for FY2025.

(Unit: Billions of yen unless otherwise stated)

(2) Outline of the Contents of the Liability Limitation Contract

The Company has concluded liability limitation contracts with Non-Executive Director, SHIGEMORI Takashi and each External Director that limit their liability for damages set out in Paragraph 1 of Article 423 of the Companies Act up to the total of the amounts set out in each item of Paragraph 1 of Article 425 of the said Act, provided that they perform their duties in good faith and without gross negligence.

(3) Outline of the Contents of Directors and Officers Liability Insurance Contract

1) The Scope of the Insured

The insureds of the Directors and Officers Liability Insurance Contract are the directors and executive officers of the Company and officers of its subsidiaries.

2) Summary of Insured Accidents Subject to Coverage

The insurance shall cover the damage and litigation expenses that may be incurred by assuming such liability for the execution of duties or receiving the claim related to the pursuit of the relevant liability that is to be borne by the insured.

3) Share of Substantial Premium Burden for the Insured

The insurance premiums are borne by the Company and there is no substantial premium burden for the insured.

4) Measures to Ensure That the Insured Continue to Execute Their Duties Appropriately

By excluding from coverage damages, etc., to Directors and Officers who themselves have committed criminal or intentionally illegal acts, measures are taken to ensure that the appropriateness of the duties of Directors and Officers, etc., is not compromised.

(4) Number and Aggregate Amount of Compensation of Company's Officers

(Millions of Yen)

Category of Officers		Number of Eligible Persons	Total Amount	Breakdown		
				Base Compensation (Fixed Compensation)	Performance-linked Compensation (Bonuses)	Performance-linked Compensation (Stock-based Compensation)
Directors (Excluding Directors (Audit and Supervisory Committee Members))	In-house Director & Non-Executive Director	6 persons	191	129	41	19
	External Director	2 persons	8	8	—	—
	Subtotal	8 persons	199	138	41	19
Directors (Audit and Supervisory Committee Members)	In-house Director	1 person	21	21	—	—
	External Director	3 persons	25	25	—	—
	Subtotal	4 persons	46	46	—	—
Total		12 persons	246	184	41	19

- (Notes) 1. "Number of Eligible Persons" and "Total Amount" above include one in-house Director (Excluding Directors who are the members of Audit and Supervisory Committee Member) and one External Director who was not Audit and Supervisory Committee Members, who retired at the conclusion of the 111th Ordinary General Meeting of Shareholders held on June 27, 2024.
2. The amount of the performance-linked compensation (bonuses) includes 41 million yen (41 million yen for Directors), excluding 38 million yen for executive officers (excluding those concurrently serving as Directors), out of 80 million yen in provision for directors' bonuses for the current fiscal term.
3. The performance-linked compensation (stock-based compensation) states the amount expensed in the current fiscal term as the restricted stock compensation.

1) Compensation Determination Policy

a) Basic Policy for Determining Compensation Amounts

- (i) The compensation system for directors and executives (executive officers with control over business operations) uses the achievement of performance targets as an incentive and aims for long-term increases in corporate value, not just quick profits.
- (ii) Compensation shall be set at a level that is competitive in terms of attracting and retaining human resources, while taking into consideration the size and nature of the Company's business and other factors.
- (iii) Whether the level of compensation is reasonable or not is something that is reviewed using objective materials.
- (iv) The amount of individual compensation shall be determined based on whether the director concurrently serves as an executive officer, the executive officer's position (chief executive officer, senior managing executive officer, managing executive officer, without role, etc.), and whether he/she is independent.
- (v) The transparency and fairness of decisions about compensation are ensured with contributions from the Nomination & Compensation Committee, more than half of whose members are independent external directors.
- (vi) Compensation for directors who are members of the Audit and Supervisory Committee shall be limited to base remuneration only, and shall be determined through consultation among the Audit and Supervisory Committee members within the scope of the total amount of remuneration determined by a resolution of the General Meeting of Shareholders.

b) Compensation Breakdown

- (i) Compensation for directors and executives comprises two elements: fixed compensation ("base compensation") and compensation linked to the Company's business performance ("performance-linked compensation") that takes the form of bonuses or stock-based compensation in the Company.
- (ii) Directors who are not involved in business execution are responsible for monitoring and overseeing management; as such, they only receive base compensation.

- (iii)The ratio of base compensation and performance-linked compensation ("bonuses" and "stock-based compensation") for each fiscal year for directors who execute operations shall be designed to be within the following ranges depending on whether directors and executive officers hold concurrent posts and on the position of executive officers (hereinafter referred to as "Positions") assuming the achievement of target performance index of 12,000 million yen for the final year of the Medium-Term Business Plan (FY2023-FY2025) for the relevant fiscal year.

Base Compensation (Fixed Compensation)	Performance-linked Compensation (Bonuses)	Performance-linked Compensation (Stock-based Compensation)
64～69%	20～27%	9～13%

※The share price per share was calculated at 5,000 yen, which was the closing price on the Tokyo Stock Exchange as of March 31, 2025.

c) Base Compensation

- (i)Base compensation is according to roles and responsibilities, in order to function as the foundational remuneration for professional duties.
(ii)Base compensation is paid monthly as a pecuniary amount.

d) Performance-linked Compensation

- (i) Bonuses: As short-term incentives tied into achievement of targets set in the medium-term business plan, these fluctuate depending on the consolidated performance for each fiscal year, and are paid as a pecuniary amount at a fixed time each year (scheduled for the end of June).
(ii)Stock-based compensation is positioned as a medium- and long-term incentive to promote a greater sharing of value with shareholders and sustainable growth for the Company. This is paid at a time decided by the Board of Directors.

2) Mechanisms of Each Compensation Element

a) Base Compensation

- (i)The base compensation amount shall not be changed during the term of office (one year).
(ii)Should the “size of the Company” (net sales, market capitalization, number of employees) and "profitability" (operating profit, ROE, D/E ratio) change, this will be reflected in the amount for the following year (term of office).

b) Performance-linked Compensation and Bonuses (short-term incentives)

- (i)These are paid on the proviso that consolidated operating profit for the relevant fiscal year reaches or exceeds 5,000 million yen, and are determined according to the formula below.

Bonus calculation formula: performance indicator × coefficient

- (ii)The performance indicator is the sum of consolidated operating profit and financial balance, in order to reflect the consolidated performance for each fiscal year. The actual value of the performance indicator for the current fiscal year was 11,076 million yen.
(iii) The coefficient is used to calculate the amount of bonus (set by Positions, etc., and according to whether the recipient is also a director and according to their position, with the higher the position, the higher the coefficient) based on the aforementioned ratio, and the relevant bonus amount is set as a division of the target of 12,000 million yen.
(iv) It is possible to reflect individual performance for each person's bonus within a range of +/- 10% based on the calculation formula. However, the total bonus amount does not change.

c) Performance-linked Compensation and Stock-based Compensation (medium- and long-term incentives)

- (i)Transfer-restricted stock in the form of common shares of the Company is granted in a number dependent on the recipient's Positions and other factors (however, the grant takes the form of payment as monetary claims equivalent to the price of the relevant shares; for directors and executives it will be paid in as property contributed in kind, to be received as shares of the Company's common stock to be issued or disposed of).
(ii)The number of shares is determined based on the ratio given in 1)b) (iii) above, according to whether the recipient is concurrently a director and with the higher the position, the higher the number.
(iii)Recipients must hold the shares until they resign or retire from their position assigned by the Company.

3) Organization and Procedures for Determining Directors' Compensation

a) General Meeting of Shareholders

It was resolved and approved at the 108th Ordinary General Meeting of Shareholders, which was held on June 25, 2021, that the total annual amount of compensation for all directors who are not members of the Audit and Supervisory Committee shall be not more than 360 million yen (including 20 million yen for external directors). The number of executives to which this resolution relates is eight (including one external director).

It was also resolved and approved at the 108th Ordinary General Meeting of Shareholders, which was held on June 25, 2021, that the total annual amount of compensation for all directors who are members of the Audit and Supervisory Committee shall be not more than 60 million yen. The number of directors to which this resolution relates is four.

At the 110th Ordinary General Meeting of Shareholders, which was held on June 23, 2023, it was determined that the total amount set aside for transfer-restricted shares to directors shall be set to not more than 90 million yen per annum. The number of executives affected by this resolution is five directors (excluding those who are members of the Audit and Supervisory Committee, the external director and the non-executive director).

b) Board of Directors and Consultative Body

The Company has established the Nomination & Compensation Committee as a consultative body to the Board of Directors on compensation for directors who are not members of the Audit and Supervisory Committee and executives. The Nomination & Compensation Committee, consisting of the president, the director in charge of human resources, and four independent external directors, is intended to ensure transparency and fairness in the determination of compensation for directors who are not members of the Audit and Supervisory Committee and executives by advising the Board of Directors regarding the determination of compensation systems, levels, and specific amounts to be paid.

The Board of Directors deliberates and determines the policy and method of determining compensation for directors who are not members of the Audit and Supervisory and executives based on advice from the Nomination & Compensation Committee.

As they perform corporate management under the leadership of top management, the amounts of individual compensation for directors who are not members of the Audit and Supervisory Committee and executives for the relevant fiscal year have been delegated by Board of Directors decision to OGAWA Ikuzo, the president and representative director, to determine. Conditions for delegation to the president include determining the individual compensation amounts for directors who are not members of the Audit and Supervisory Committee and executives in accordance with the relevant policies. Additionally, the president shall consult the Nomination & Compensation Committee to ensure these amounts are appropriate based on the compensation determination policy, and shall accept the committee's confirmation of their suitability. Through the above, the Company has ensured that the president exercises his authority appropriately, and judged that the individual compensation amounts for directors who are not Audit and Supervisory Committee members and executives are in line with relevant policies.

Overview of systems to ensure appropriate business operations and the state of their operations

To ensure that business is conducted appropriately under the Group Corporate Mission, the Board of Directors has resolved to establish the following systems (Internal Controls Systems) pursuant to the Companies Act and the Regulations for Enforcement of the Companies Act.

Under these systems, the president and individual directors in charge, who are responsible for business execution, are also responsible for practical maintenance and operation of Internal Controls Systems according to their duties and the Internal Control Committee regularly monitors the status thereof. In addition, the Board of Directors strives to ensure and improve the efficacy of the Internal Controls Systems by overseeing the status of its operation and revising the system itself as needed in response to changing conditions.

(1) Systems for Ensuring That the Performance of Duties of Company and Group Directors and Employees Conforms to Laws, Regulations, and the Articles of Incorporation

■ Systems

- 1) The Company shall establish a code of conduct for the Company and the Group, and ensure that all officers and employees act in accordance with the code. In addition to reporting the matter to the Audit and Supervisory Committee and the Board of Directors of any serious violations discovered of laws, regulations, or the articles of association, violations other than those will also be reported in a designated manner.
- 2) Practical procedures are established for appropriate and efficient business execution, and duties are performed based on these procedures.
- 3) To ensure compliance, education and training will be conducted at the Company and Group companies and efforts will be made to promote thorough compliance throughout the Group.
- 4) The Company shall establish a compliance committee and oversee compliance between the Company and the Group.
- 5) An internal whistleblowing system has been established to maintain systems and environments under which Company and Group officers and employees can directly report compliance violations or suspicions thereof to the reporting desk established both internally and externally.
- 6) A dedicated section has been established to oversee internal auditing. Business execution in the Company and the Group is audited and improvements are made for any issues discovered.
- 7) Any and all relations, including transaction relations, with antisocial forces are eliminated.
- 8) The Company will manage and oversee the execution of the duties of Group company directors and employees to ensure that such execution conforms to laws, regulations, and the articles of association.

■ Operation Status

- 1) The Company established rules and regulations that include Sumitomo Seika Group Charter for Business Conduct and various business rules. It strives to do business appropriately, including compliance with laws, regulations, and articles of incorporation, and efficiently through business execution based on these rules and regulations. These rules and regulations are also reviewed as appropriate. These rules also establish procedures and other matters related to the reporting of any violations discovered of laws, regulations, or the articles of association.
- 2) An Internal Controls Committee and a Risk and Compliance Committee have been established to ensure compliance at the management and field levels by identifying compliance issues of the Company, considering responses, and overseeing the state of their implementation. The Board of Directors oversees the operation of the Company's compliance system through receiving reports from and issuing instructions to the Internal Controls Committee and other bodies.
- 3) To ensure compliance, the Company provides annual compliance training for all officers and employees.
- 4) The Company operates an internal whistleblowing system as a contact point for reporting improprieties and compliance violations. This helps to ensure appropriate business execution by Company and Group officers and employees, under rules that protect whistleblowers and maintain their confidentiality while also prohibiting treating them at a disadvantage. The states of receiving and responding to individual whistleblower reports are reported to outside attorneys for ensuring unbiased and valid evaluation, to check for any issues in practical responses. In addition, the Board of Directors oversees the operation of the Company's internal whistleblowing system by receiving reports from and issuing instructions to the directors responsible.
- 5) The business auditing system entrusts appropriate sections of auditing in fields that require specialized knowledge, such as RC, quality control, and information systems, in addition to auditing by the Internal Audit Department. In addition, if the results of Audit and Supervisory Committee audits and internal audits show that any improvements are needed, the subject sections are asked to make improvements and regular follow-up auditing is conducted regarding the implementation of such improvements to ensure more appropriate business operations. During the current fiscal year, operational audits were conducted with a primary focus on on-site audits.

(2) System Related to Retention and Management of Information on Business Execution by Company Directors

■ Systems

The Company shall establish rules on management of information concerning business execution. It retains and manages such information pursuant to these rules and laws and regulations in accordance with its nature and importance.

■ Operation Status

Information on business execution by directors is retained and managed appropriately pursuant to the Document Handling Rules, the Accounting Rules, and other rules and regulations. During the current fiscal term, in addition to appropriately implementing the rules containing necessary provisions for appropriate retention of electromagnetic records related to transaction information for electronic transactions, the Company made progress on efforts including digitalization of retained documents and e-signing of contracts (i.e., e-contracts), to improve business efficiency.

(3) Rules and Other Systems on Management of Risks of Losses to the Company and the Group

■ Systems

- 1) The Company shall establish rules and regulations regarding risk management during normal business operations and procedures in the event of disasters, accidents, or other emergencies.
